**RUBRICS FOR INTEGRATIVE PROGRAMMING –FINAL HANDS-ON EXAM**

Schedule:	Date:				
Project title:					
PROJECT CRITERIA	Highly Implemented 5	Satisfactory Implemented 4	Fairly Implemented 3	Partially Implemented 2	Not Implemented 1
<b>PROGRAM SOURCE CODES</b>					
<b>Syntax</b> Ability to understand and follow the rules of writing PHP programs (20%)	The application correctly executes all functions.	The program executes, but there are unnecessary codes within the program.	Some parts of the program execute, and some parts are not.	The program doesn't execute but can be fixed easily (missing semicolon, wrong names, etc.).	Program does not execute
<b>Logic</b> Ability to determine appropriate conditions and the overall flow of the program (15%)	Program logic is correct.	Program is correct but program logic contains errors and redundancy.	Program has some logical errors that may just be miscalculations on conditions.	Program logic does not conform to the directions.	No logic is applied to the program at all.
<b>Correctness</b> Ability to write appropriate algorithms that give the correct output. (20%)	Program produces the correct output based on the input given	Program produces correct output on most inputs.	Program output are almost correct and has some minor miscalculations	Very few correct outputs are found.	Program output is incorrect. Needs major rework in calculations.
<b>Program Design</b> Ability to design a proper UI for the users to interact with the program. (30%)	Design is well thought. Design doesn't hinder the user experience.	Design is well-thought and is aesthetically pleasing	Design is lacking in places	The design is inappropriate to the topic	Design needs improvement and the program is not user friendly
<b>Code Organization</b> Ability to write well-organized and structured code. (10%)	Objects are named descriptively and appropriately for their purpose; code is consistently and clearly organized, commented,	Objects are mostly named appropriately, but some could be more descriptive; code is mostly organized, commented, and indented, and with a few minor issues	Objects are fairly named appropriately, but some could be most descriptive; code is mostly organized, commented, and indented, with a few minor issues	Objects are inconsistently or poorly named, making their purpose unclear; code is generally unorganized and difficult to follow, with issues	Object names are unclear or use default names, making it difficult to understand their purpose; code is disorganized and unreadable, with little or

## I. PROJECT OVERVIEW

Marinduque, known as the "Heart of the Philippines," is a breathtaking province situated in the Mimaropa region of the country. Endowed with natural wonders and a rich cultural heritage, Marinduque offers a distinctive and captivating beauty that mesmerizes both locals and visitors alike.

Boac serves as the capital municipality of Marinduque province, located right at the heart of the Philippines. It is a town that seamlessly integrates history, culture, and natural splendor. With its well-preserved architecture, enthralling festivals, and tranquil landscape, Boac provides a delightful escape that leaves visitors enchanted and longing for more. The Boac Marinduque Tourist Guide has been created to offer the best experience in exploring the tourist spots and events located in Boac Marinduque. This website is available free of charge to all users who wish to visit the stunning municipality of Boac.

The Boac Marinduque Tourist Guide website is designed to be a comprehensive and user-friendly resource for visitors seeking to explore and experience the best of Boac. Whether you are a first-time traveler or a returning visitor, this website will assist you in planning a memorable and enjoyable trip to this enchanting town. The primary focus of the Boac Marinduque Tourist Guide project is to highlight the most attractive spots in Boac Marinduque, ensuring that visitors have a remarkable experience they won't soon forget. Additionally, the website provides up-to-date information about newly opened restaurants, preferred hotels for accommodation, and other relevant details that visitors may find useful while discovering the beauty of Boac. The Boac Marinduque Tourism Guide website has been developed with the convenience of foreign tourists in mind, featuring an easy-to-navigate and user-friendly interface that maximizes their browsing experience.

Overall, the Boac Marinduque Tourist Guide aims to provide information to all guests who plan to visit and to promote the beauty of Boac Marinduque. It serves as a platform to showcase the unique culture, heritage, and natural splendor of Marinduque, inspiring the province and its residents to be more creative and productive in making our province even more stunning and vibrant..

## Objectives

The Boac Marinduque Tourism PHP Scripting project encompasses several objectives aimed at enhancing the tourism industry in Boac Marinduque. The primary goal of this website is to promote tourism in Boac by showcasing its attractions, restaurants, hotels, nature and cultural heritage. By doing so, the website aims to attract visitors and encourage them to explore the charming aspects of Boac.

The website serves as a comprehensive source of information for tourists, providing detailed descriptions, photos, and various attractions and accommodations in Boac. Visitors can find all the necessary information about the places they wish to visit and stay. The website strives to enhance the overall visitor experience by offering a user-friendly platform that allows easy navigation and access to relevant information. The clear and organized layout ensures that visitors can find the information they are looking for.

Furthermore, this Tourism Guide website aims to fulfill the requirements of our instructor and apply the knowledge we gained during our instruction. The main objective of creating this website is to pass the subject from last semester. The creation of this website requires the application of PHP and XML knowledge to provide detailed information about tourist spots and events, as well as a well-designed and user-friendly interface.

In summary, the three main objectives of the Boac Marinduque Tourism Guide website are: to provide detailed and user-friendly information for guests and tourists, to promote must-visit destinations in Boac, and to fulfill the requirements of our instructor and pass the subject. By achieving these objectives, the website will undoubtedly promote tourism, provide valuable information, contribute to the growth and development of Marinduque's tourism industry, and create lasting benefits for the local community.

## Audience

The Boac Marinduque Tourism Guide website caters to a diverse audience, including both domestic and international tourists who are interested in visiting Boac and exploring its attractions and the beauty of the municipality of Boac Marinduque. This website is designed for everyone who wants to experience the beauty of Boac Marinduque. The content of the website will be in English, which is a universal language, ensuring that tourists can easily understand the detailed information provided.

The primary audience of this website consists of tourists who are planning a trip, either individually or in groups, and are seeking comprehensive and up-to-date information to help them plan and execute their trip. These travel enthusiasts have a general interest in travel and exploring new destinations. Additionally, there are nature lovers, outdoor enthusiasts, beach lovers, and adventure seekers who are attracted to Boac's natural landscape.

Finally, the local audience, including Marinduque residents and residents of Boac, is an important audience for this website. They are interested in exploring their own town, staying updated with local events and attractions, and promoting their small businesses. Moreover, the website also caters to travel industry professionals, such as travel agents, tour operators, and travel bloggers, who seek detailed and reliable information about Boac. The website serves as a valuable resource for them to gather accurate and up-to-date information about the attractions and nature of Boac. It can also provide opportunities for collaboration and promotion of small businesses, including free promotion through partnerships with bloggers. This project can serve as a marketing strategy that offers advantages for promoting their own businesses.

## Scope

The Boac Marinduque Tourism Guide project has a specific scope that focuses on tourists seeking unique and fresh experiences in the province, allowing them to discover its rich culture, nature, and heritage. The aim is to provide an unforgettable experience. To ensure easy comprehension for tourists, the website's content is presented in English, which is a universal language.

The project's objectives extend beyond tourism promotion. It aims to create more job opportunities and boost the local economy by enhancing the online visibility of the local tourism industry and showcasing its attractions and services to a broader audience. Additionally, the project prioritizes a user-friendly website design, ensuring that users can easily navigate and have a seamless and positive experience. The website will offer tourists valid and detailed information about the tourist spots they plan to visit.

Lastly, the project holds potential for providing more employment opportunities, which can greatly benefit the local residents of the province. The website plays a crucial role in fostering better communication and can contribute to overall improved communication channels within the province.

## Features

The Boac Marinduque Tourism Guide aims to enhance the user experience and offer a comprehensive source of information to visitors, while also promoting the tourism industry in Boac Marinduque. To achieve this, the website will incorporate various features that contribute to these objectives. These features include a user-friendly interface that provides detailed information about every spot, along with accompanying photos and other relevant details specific to Boac Marinduque. Furthermore, the website will include multimedia content such as images to give tourists a broader overview of the beauty and uniqueness of Marinduque. In order to ensure easy comprehension for tourists, the website's content will be presented in English, which is a universal language widely understood by visitors. Overall, Boac Marinduque Tourism project provide user-friendly platform that showcase Boac uniqueness attractions that promotes the audience and industry.

## Functionality

The Boac Marinduque Tourism project aims to provide visitors with a seamless and user-friendly experience while promoting the attractions of Boac Marinduque. The website will offer a range of functionalities to achieve these objectives. Firstly, it will include a search bar that allows users or visitors to easily search for specific attractions, accommodations, and other relevant information within the website. Additionally, the website will feature a contact section where users can send messages to the admin or owner to communicate their inquiries, suggestions, or comments about the website.

In summary, the Boac Marinduque Tourism project strives to create a user-friendly platform that showcases the unique attractions of Boac, thereby promoting both the audience engagement and the tourism industry as a whole.

## II. PROJECT NAVIGATION

The navigation for the website would likely include a menu bar with dropdown options for different categories, such as tourist attractions, accommodations, transportation options, and events. The menu bar could also include a search function that allows users to filter their search results based on specific criteria.

The web page interface for each category could feature a list of options, such as different tourist attractions or accommodations, along with a short description and relevant details, such as location, hours of operation, and contact information. Each option could also include a link to a dedicated web page with more detailed information and multimedia content, such as photos and videos.

The web pages themselves could be designed to showcase Marinduque's unique cultural and natural heritage, with multimedia content and interactive features, such as maps and feedback mechanisms. The web pages could also include calls to action, encouraging users to book a trip or share their experiences on social media.

Overall, the navigation and web page interface for the Marinduque Tourism PHP Scripting project would be designed to provide a seamless user experience and promote Marinduque's tourism industry to a wider audience.
